OFFICE OF PETITIONS

Applicant: De Groot, Max
Appl. No.: 10/529,213
Filing Date: September 26, 2003
Title: IDENTIFICATION OF A TERMINAL TO A SERVER
Attorney Docket No.: 032326-296
Pub. No.: US 2006/0141987 A1
Pub. Date: June 29, 2006

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on August 22, 2006, for the above-identified application.

The instant request is that the application be republished because the patent application publication has an error in dependent claim 3.

The request is granted.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were previously submitted or **complete copies of the publication**, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out what was printed incorrectly in the application, where the error occurs in the publication and where the correct text or drawing is found in the application papers. Marked up relevant copies of the applications papers and the pre-grant publication may facilitate processing of the request, where it is not readily apparent where the error occurs. If it is not clear why the error is a material error, further explanation may be warranted.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709.
